PROJECTS

NewsKnock - Daily News Website

Languages - JavaScript, CSS and HTML

Feb 2022 – Mar 2022

Other tools - ReactJS, News API and Git

- NewsKnock is a daily news website which can be used to grab quick news bites from not only a wide range of sources but also topics like Business, Sports, Technology, Health, etc.
- Context is very important - Every news bite has a 'Read More' option which opens up the entire article, provided by the source, in a new tab.
- More features yet to come - News from around the globe in different languages.
- NewsKnock uses the power of ReactJS Components to make the code more reusable and easy to debug.

TextUtils - Text Editor

Languages- JavaScript, CSS and HTML

Jan 2022 – Feb 2022

Other tools - ReactJS, Github Pages and Git

- TextUtils is an utility website used to manipulate the text according to the user's need.
- Be it counting the number of words or characters in a text, changing the entire text into uppercase or lowercase or removing extra spaces from the text, TextUtils has it all.
- TextUtils uses Github Pages to host the complete website online for free.
- **Website Link** - <https://aryanshekhar14.github.io/textutils/#/>

Untitled - Online Notebook

Languages- JavaScript, CSS, HTML and MongoDB

June 2022 – Present

Other tools - ReactJS, Express, Git, etc.

- It is an online on the go notebook website which provides users to maintain an online notebook and edit it whenever they want by simply logging in to their notebook profile.
- Currently working on the backend to store the data and hashing the password using bcryptJs.
